

Rumfangsberechnungen:

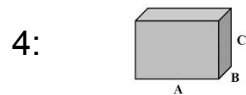

$2(a) \times 3(b) \times 4(c) = \text{(rumfang): } \underline{\hspace{2cm}} \text{ cm}^3$

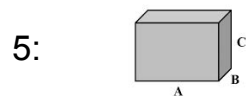

$3(a) \times 3(b) \times 10(c) = \text{(rumfang): } \underline{\hspace{2cm}} \text{ cm}^3$

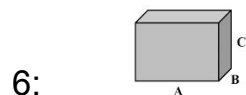

$2(a) \times 5(b) \times 5(c) = \text{(rumfang): } \underline{\hspace{2cm}} \text{ cm}^3$

$3(a) \times 5(b) \times ?(c) = \text{(rumfang): } \underline{\hspace{2cm}} 60\text{cm}^3$

$2(a) \times ?(b) \times 4(c) = \text{(rumfang): } \underline{\hspace{2cm}} 56\text{cm}^3$

$5(a) \times 5(b) \times ?(c) = \text{(rumfang): } \underline{\hspace{2cm}} 125\text{cm}^3$
